

PUGCOIN

PUGCOIN is a BSC-Based Decentralised Token
Whitepaper 1.1 (New 1.2 is coming soon)

About The PUGCOIN!

The first decentralised Marketplace that uses blockchain technology to standardise and simplify data. We use blockchain technology to provide user-friendly, powerful, and reliable crypto solutions.

Finally, Our aims to unite all businesses, staff, and properties into a single blockchain ecosystem, making business fully effective, open, and dependable.

Our Goal

We Create a Completely Decentralised Marketplace to Supplement Blockchain Technology Access.

We've built a cutting-edge marketplace where you can buy and sell something safely and efficiently. The world's fastest and most adaptable asset network. It will include a digital arbitration system as well as fast cryptocurrency payment integration.

Transparency!

On the bscscan, verifiable evidence of the project's success figures, as well as the transaction history of its partners, is publicly accessible. The whole system is based on individual's TX ID, and that's all there is to it! A Fully ANONYMOUS SYSTEM!

PUGSWAP!

PugSwap is an AMM, Yield Farming platform and built on Binance Smart Chain.

We're laying the groundwork for a token swapping network right now. PugSwap is the name given to the site.

PUGCOIN users will be able to exchange their tokens for other tokens with similar themes.

TRADING!

The PUGCOIN will be listed on the most prominent cryptocurrency exchanges. Pancakeswap, Uniswap, 1inch, and Bakeryswap are a few of the exchanges available. The procedure is already in progress and will be finished soon.

Users will exchange their other tokens for PUGCOIN once it has been identified on these platforms. As a consequence, the value of PUGCOIN will rise at a faster rate than it is now.

Users would be able to exchange their PUGCOIN with other cryptocurrencies..
